Summary

My Portfolio: https://hulchenko.github.io/portfolio/

Transportation Logistics professional in the past, who plunged into the universe of coding in mid 2020 to expand my passion for creativity and technology. Despite of my lifetime attachment to computers, I did not realize how much I would love coding! My formal background has given me the strong skill of problem solving, increasing my performance in the diverse world of technology. I maintain strong fluency in Russian and Ukrainian, in addition to English, opening the potential for new opportunities. Coding is an art form which interferes with everyone's daily life in one way or another, and I'm thrilled to take part in the creative process.

Experience

Full Stack Developer
GOLFADAY LTD
Jul 2021 - Present (1 month +)
Building Mobile App using:
